

Sprint 1 - Contributions & AI Disclosure

Contribution statement

- Joe Mota - Owned: portal IA, home/3D narrative, site polish. Reviewed: charter scope; About Us.
- Alex Rivera - Owned: market research synthesis/pivots. Reviewed: business strategy.
- Sam Chen - Owned: business strategy; charter draft. Reviewed: market top-pick evidence.
- Jordan Blake - Owned: CV feasibility notes for risks/assumptions. Reviewed: out-of-scope; stakeholders.
- Riley Santos - Owned: web/PDF parity; contribution packaging. Reviewed: all Sprint 1 public pages.

Replace placeholder teammates with the real roster before Portal Debut Day.

AI use disclosure

Tool: Cursor / generative AI. Used for portal construction (layout, Three.js visualization, scaffolding) and initial drafts of Sprint 1 PM artifacts for team review.

Changed or rejected from AI output

- Rejected payment/reservation marketplace framing; kept occupancy intelligence.
- Rewrote top pick around camera reuse and dual driver/ops value.
- Tightened charter out-of-scope (no enforcement LPR; no unapproved production feeds).
- Go/no-go justifications and individual memos/reflections remain human-owned per syllabus.
